回答问题

请阅读下面短文，根据所提供的信息，回答五个问题。要求所写答案语法正确、信息完整切题。

At school, students learn some different subjects in the classroom. These days, a new subject becomes popular. That is school gardening (园艺). Students learn it outside the classroom.

It is difficult to find the money to keep a school garden going. Some teachers, however, are finding good ways to make it work. The school garden may be very small. However, students can have a lot of fun in it. At first, teachers decide (决定) what vegetables to grow. Then they grow them with students. It is nice for the students to get a tomato, wash it and eat it right in the garden, so tomatoes are their favorites.

Gardening is not only an interesting subject, but also a helpful subject. Some vegetables are easy to grow, but others need a long time. This can teach students patience (耐心). With gardens, kids get to see a beginning, a middle and an end to their work. When working with others, they can also learn some teamwork (团队合作) skills.

Gardening is not just a hobby, it's a life skill.

76. Where do students learn gardening?

77. Who can have a lot of fun in school gardens?

78. Why are tomatoes students' favorites?

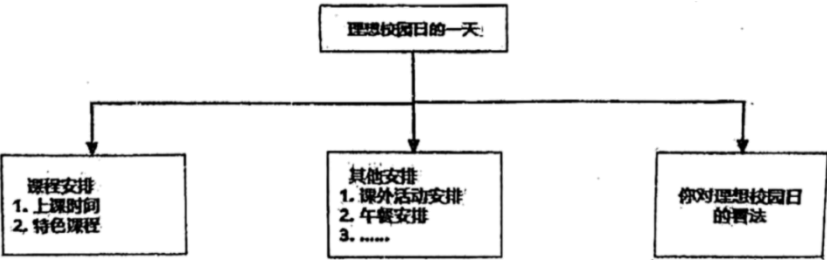

79. Do all the vegetables need a long time to grow?

80. What can students learn when working with others?
